

WE CONGRATULATE TELENOR ON THE SUCCESSFUL ADDITION OF THOR 6 TO ITS FLEET

InControl

L-3 welcomes THOR 6 to the Telenor fleet of satellites being managed by our InControl™ software. InControl is designed from the ground up to manage satellite fleets with one application. It is simple to use, reliable, customizable and extensible. To learn more about the world's leading satellite command and control software solution, go to www.L-3com.com/TW.
